Shown in custom Quarter Sawn Oak veneer.

# Unlimited potential.

Take a look at any room in your home and imagine what it could be.

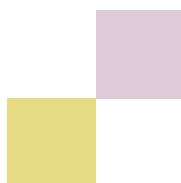

*Organized?* Of course.

*Smart?* Definitely.

*Stylish?* Impressively so.

Your home, your needs, and your vision are uniquely yours. Now your design solutions can reflect who you are, too. Share your vision with us. Then browse through our vast portfolio of products featuring a variety of colors, finishes, shelf, top and vertical dimensions (including the dramatically longer and thicker Forterra™), trim, door and drawer styles, and ingenious ways to keep every inch of your home looking smart.

The options are almost endless, so start your wish list. Then let us deliver a personalized solution that thrills you each time you walk in the door.

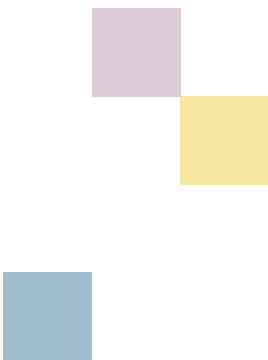

**Convenience made classic**

Start the day on a beautifully organized note. Defined by choice of finish, handsome hardware, and architectural detail, this closet lends structure to any wardrobe—and home decor.

Custom wood veneer cabinetry provides the perfect place for every hat, bag, suit, or sweater. Enclose wardrobe basics behind glass doors. Display pieces that inspire.

*Shown in Taos Cherry veneer.*

### Mine and yours

A tasteful two-tone finish appeals to his and her tastes in this tailored dressing room. The floor-to-ceiling design offers storage for two complete wardrobes, with favorite items close at hand and out-of-season clothes tucked out of sight. The corner nook provides a perfect seat to slip on your shoes or check your appearance in the mirror.

Carve out a closet space just for him, outfitted with ample space for suits, shoe storage, and built-in dressers. Shelves keep favorite photos, trophies, and memorabilia out to be admired.

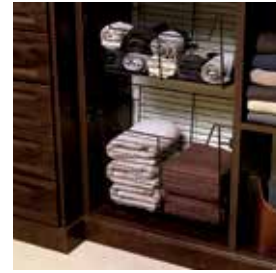

Top shown in Chateau and Heritage Maple. Bottom in Mocha.

## In-house boutique

Deciding what to wear is more fun than ever. This walk-in closet is designed to showcase each carefully selected garment. Tall enclaves accommodate long dresses and slacks. An island provides plenty of room for folding, organizing, and wardrobe planning.

It's all in the details. A mirror retracts out of sight when not in use. Roll-out wire baskets hold linens. An ironing board swivels out for a quick press.

*Shown in Mocha.*

### Everyday luxury

This intimate space for two makes getting ready an event in itself. A central captain's quarters invites conversation or relaxation. Multiple rods, drawers, shelving, and shoe storage are complemented by clever solutions for hanging garments and hiding ironing, precious jewelry, mirrors, and belts.

Thick Forterra panels emphasize the dresser and island tops while their long, unbroken lines form natural divisions within the closet space.

*Shown in Eggshell Ivory with Forterra in Canyon Plum.*

## Simply elegant

This stunning walk-in closet lends subtle structure that spotlights any wardrobe. Corner shelves, racks, and rods keep your shirts, shoes, scarves, and purses in perfect order. A wardrobe valet extends to show off tomorrow's ensemble. Rounded edges soften the style. Built-in hutch hides or highlights your belongings beautifully.

*Shown in Arctic White.*

### Decisions made easy

Find and coordinate your wardrobe at a glance. Hanging clothes, shoes, and bags are ready to be mixed and matched, while the built-in dresser and cabinet keeps casual attire or accessories organized. The extra-thick Forterra panels create bold vertical lines that define each space with style.

Modern storage needs are interpreted with traditional style in this reach-in closet. Thoughtful details like pivoting pullout racks bring belts and ties within reach.

Top shown in Arctic White. Bottom in Mahogany.

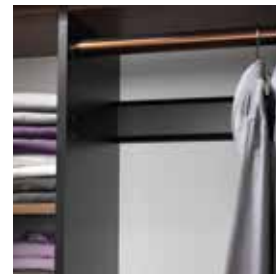

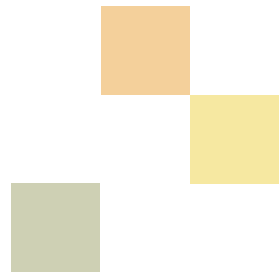

### More than a wardrobe

This tailor-made wardrobe suite handles garments, extra bedding, and media handsomely. An upper valance lends architectural interest.

Keep clothing, technology, and accessories at the ready inside a smartly appointed closet. Warm colors, coordinating hardware, and a track cover add upscale polish. A full suite of baskets, built-in hampers, pull-out hampers, and racks make open storage streamlined and convenient.

*Above shown in Ambassador. Below shown in Cocoa and Midnight Black.*

### Baby steps

Durable and kid-safe, ORG Home storage solutions grow from toddler to teen. Adjustable shelves, rods, and cubbies offer a fun, practical alternative to chaos. Two rods replace three as your child grows.

*Shown in Arctic White.*

*Shown in Arctic White.*

## Room to grow

Get kids organized from wardrobe to workspace. A lifetime of creativity starts at this simple desk fit for homework, web-surfing, or artistic endeavor. Hooks, baskets, and racks place prized possessions within sight and reach.

Wire baskets keep clutter off the floor. Leave them open for display or ventilation—or line them in canvas or leatherette for an extra dose of color.

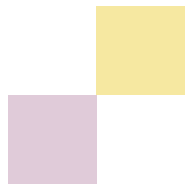

# Wallbed

## Make room

No need to dedicate precious space to a single purpose. When guests head for home, the wallbed folds up and out of sight, leaving ample space for your hobbies, homework, or workout routine. Cabinets complement your room's aesthetic.

Choose from vertical or horizontal fold-out options to suit your space. Twin, full or queen size, the wallbed works with standard size mattresses and acts as its own box spring.

*Shown in Arctic White.*

## Night and day

By day, it's an office with open bookshelves, deep cabinets, and a convenient desktop. By night, it transforms into a side-tilt wall-bed with a built-in pillow box, then disappears just as easily when you need to free up floor space again. Thick Forterra panels in a contrasting finish are a fashionable and practical choice for tops, a work surface, and visual accents.

The innovative desk bed can turn even small rooms into multipurpose areas, offering a twin bed and office within one 82" x 44" space. Its unique balancing mechanism creates a smooth, uninterrupted transition that keeps bedding and desktop items in place while switching from one to the other.

Top and left shown in French Roast with Forterra in Wheat. Lower right shown in Chateau.

### Class act

This home office earns high marks. Cabinets gather files, references, and worktools. Credenza and shelves keep printer and supplies out of the way, yet within easy reach. Wire trays eliminate cord and cable clutter to keep the desktop clean and focus clear. Hang-on accessories handle small items, and keep things off the worksurface.

*Shown in Autumn Cherry with Midnight Black worksurfaces.*

## Home work

With a range of design and finish options, even the hardest working office feels right at home. Clean aesthetics let you blend business and pleasure and make room for multitasking—homework, bill paying, web shopping, and budget planning.

Top shown in Eggshell Ivory. Bottom in Autumn Cherry.

### Promote yourself

Make any executive right at home with traditional profiles, woodgrains, and hardware options. Generous worksurfaces make it easy to review reports and report cards, plan the next business trip, or organize vacation photos.

This artfully crafted space signals success but knows how to get down to business. Shelving, drawer and door options conceal and reveal, while wire trays manage the utilities to keep the space clear.

*Top shown in Autumn Cherry.  
Bottom in Clear Cherry and Harbor Cherry veneer.*

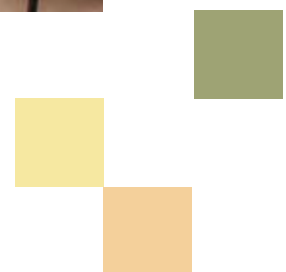

### ORG Home at work

In business as in life, a “one-size-fits-all” approach doesn’t always work. Put the professional design and installation expertise of ORG Home on the job for a space uniquely qualified to support you, your team—and your business plan and budget.

*Above and center shown in Mocha.  
Bottom left in Arctic White.*

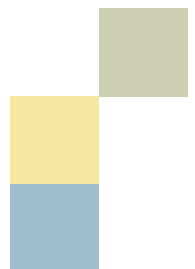

### Center of activity

Game night, movie time, music, and the home library are even more appealing with a media center that matches your home decor. Choose wood veneer with crown moldings for a traditional look. Explore the possibilities of seemingly endless shelves made with Forterra. Or select a sleek two-tone design for contemporary cool.

*Left shown in Harbor Cherry veneer.  
Right bottom in Arctic White with Forterra in Canyon Plum.*

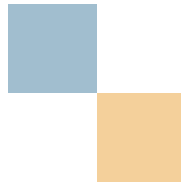

**Entertaining ideas**

Stop by your custom beverage station for something fresh squeezed, shaken, or stirred. There's no limit to what's on tap when you've designated space for storing beverages and glassware. A credenza full of party supplies, board games, books, and craft supplies prepares you to please any crowd at a minute's notice.

*Top shown in Chateau. Bottom left in Knotty Timber with Midnight Black top. Bottom right in Arctic White.*

### Wash and dry

Shape a laundry area to accommodate any size washer and dryer—and any size family. With baskets for sorting, cupboards for supplies, and rods for hanging, this space handles loads.

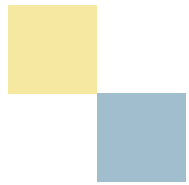

Top shown in Arctic White. Bottom in Eggshell Ivory.

## Tasteful addition

Carve out space for a storage solution that knows its way around a kitchen. Choose from a range of styles, finishes, and hardware to please your palate. Cabinets close to conceal cookware and cleaners. Vertical dividers stow large, hard-to-handle items, placing platters and boards within arm's reach.

Top shown in Arctic White.  
Bottom in Heritage Maple.

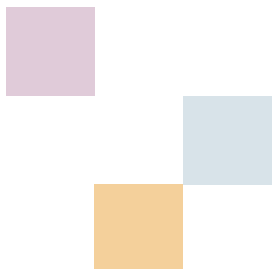

Shown in Light Cherry.

### Stock up

Dish out anything guests and family order up with this storage-packed pantry. Corner shelves store cookbooks and organize boxed and bottled goods. Specialized shelving racks up wine bottles and glasses. Drawers pull out to collect small appliances and control clutter. Open baskets keep towels tidy and let produce breathe.

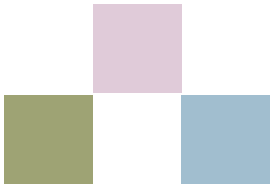

## Keep it clean

Closed doors conceal stored items when not in use, giving your garage a clean, tidy appearance around the clock. Clever solutions include a reach-in recycling center, sports lockers with pull-out baskets, a durable butcher block worksurface for projects, and even room for a utility sink.

One-inch thick shelves and robust construction stand up to tough conditions, while wall-mounted cabinets keep stored items off the damp floor and allow for easy cleaning underneath.

*Shown in Driftwood with Arctic White interior.*

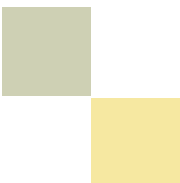

### Practically perfect

Almost endless design options make the most of every square inch in your garage. The unique Driftwood finish, extruded aluminum handles, and matching Silver Track add an unexpected dash of style, turning your garage into a space just as attractive and functional as the rest of your home.

Heavy-duty hooks, bins and accessories make it simple to arrange (and rearrange) tools for work, gardening, and hobbies any way you like.

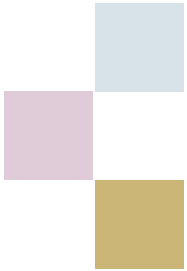

### Showstopping style

A rich Chateau finish along with aluminum handles create an upscale atmosphere you'll be proud to show off. Wall-mounted cabinets come in a variety of sizes, letting you tailor a perfect solution for supporting your hobbies and gear. Add adjustable shelves, pull-out recycling bins, and full-extension drawers and baskets to keep everything looking shipshape.

The Silver Track's baskets, shelves, hooks and racks keep frequently used items conveniently within an arm's reach.

*Shown in Chateau with Arctic White interior.*

### Grown-up playroom

Part sports center, part party central, this solution makes casual or spur-of-the-moment entertainment a snap. Invite the neighborhood in for a friendly get-together with ready-made glass and beverage storage, an integrated audio system, and even a transforming tool bench with secret media storage and display space.

### Elevated parking

Take your garage to new heights with wall-to-wall storage that maximizes every inch of space. Hanging cabinets protect gear from damp concrete and allow for easy cleaning underneath. Sturdy wall accessories keep tools within arm's reach.

Extra-tall cabinets keep golf clubs in prime condition. Doors open wide for easy access and one inch thick shelves stand up to heavy items. Picture what you want, and we'll personalize a storage solution to fit your needs to a tee.

*Shown in Copper Blaze with Arctic White interior.*

## An inviting approach

Make your garage as welcoming as your home with warm colors and cool features. We back up our selection with solid workmanship and quality materials like steel hardware, matching edgeband, laminate or solid maple tops, and dovetail construction on full-extending drawers. Almost anything is possible—even a sink to make your life easier.

*Shown in Copper Blaze with Arctic White interior.*

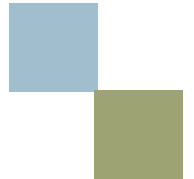

## A striking combination

Gorgeous finishes and quality hardware keep your garage dressed to impress. Intelligent design contains the clutter neatly inside, while durable, heavy-duty materials and easy-to-clean surfaces stand up to a tough garage environment.

Mix and match your choice of deep cabinets, drawers, and adjustable shelves to hold bulky garage gear. Extend the upscale look all the way to the floor with a durable, easy-maintenance floor coating system. Ask your dealer for details.

*Shown in Heritage Maple with Arctic White interior.*

### Sports headquarters

Stash or grab sports equipment in full-extending baskets on heavy-duty slides. Rugged wall accessories keep tools and hoses ready. A boot bench with added storage provides a handy perch for gearing up or down.

Shown in Platinum with Arctic White interior.

## Showroom style

Legendary race car driver Michael Andretti and his family transformed their garage into a space every bit as upscale as the rest of their home. They worked closely with ORG Home to design customized storage solutions for recreational gear, racing memorabilia, and out-of-season items. A rich Copper Blaze color, textured work surfaces, and a coated floor provide timeless style that blends seamlessly with the rest of the home.

*Shown in Copper Blaze.*

## Lifestyle driven

Organize a hub for the activities you love, like the Andretti family's scooter pit stop. ORGwall can be equipped with baskets, hooks, and more to keep recreational gear at the ready. Tall cabinets hide outdoor equipment and off-season items, while a durable work surface stands ready for the next project. Built-in display cases help the garage do double-duty as a trophy room.

## Warm welcome

Functional, family-friendly storage prevents a pileup and puts everything in its place. Open shelves keep shoes in order and off the floor. A boot bench with adjustable hooks offers a place to park your jacket, purse or groceries while opening the door.

Top shown in Ambassador. Bottom in Chateau.

### Make an entrance

Wall-to-wall storage keeps you organized coming and going. Hang, grab, and stow shoes, sweatshirts, backpacks and equipment you tote here or there. Intuitive hooks, shelves, and drawers keep everyday items in order and out of the house.

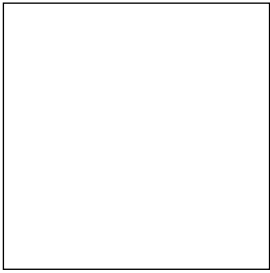

This system is divided into three tidy tiers, with cabinets above for seasonal storage. Below the coat hooks, a sturdy Forterra bench provides a place for pulling on or shedding shoes.

*Shown in Driftwood with upper details and Forterra bench in Arctic White.*

## About ORG Home

Our 187,000-sq. ft. manufacturing facility in Holland, Michigan.

### Good to know

Investing in your home is a big decision—and one you can always feel good about when you work with ORG Home.

### Leading the industry

ORG Home products are made by a well-established company with over 25 years of experience. The ORG Home difference is visible in so many ways:

- Centralized manufacturing guarantees consistently high-quality products—visible in details like our drawer and door fronts, color matching, and first-rate fit and finish.
- Close attention to evolving customer needs and wants inspires our continuous investment in new and innovative ideas.
- Our advanced design, engineering, and machinery mean we can personalize your solution to create anything—and everything—your heart desires.

### First-to-market designs

Forterra™ engineered structured panels open a new realm of design possibilities. Made with recycled content, their unique construction:

- Creates more substance with less material, saving forest-based resources
- Delivers unprecedented strength and durability
- Allows exceptionally long, uninterrupted horizontal lines
- Creates bold, exciting accents unlike any others in the market

### An exceptional experience

*From start to finish, the entire process is focused on you. Our quality, style, and expanded choices cater to all of your organizational and aesthetic needs.*

*Your local ORG Home dealer's personal service and installation take care of the rest.*

- *During an in-home consultation, an experienced designer works with you to create a plan that complements your lifestyle.*
- *Specialized ORGdesign software lets you preview the finished space in 3D and tweak until it's perfect.*
- *Expert installers integrate your solution in an efficient and timely way, handling each item with care and treating your home as they would their own.*

LIMITED RESIDENTIAL  
**LIFETIME**  
WARRANTY

ORG HOME PRODUCTS ARE MANUFACTURED USING THE HIGHEST QUALITY MATERIALS TO EXACT TOLERANCES AND INCLUDE A LIMITED LIFETIME RESIDENTIAL WARRANTY. SEE YOUR ORG HOME DEALER FOR FULL WARRANTY DETAILS.

Lake Michigan Shoreline

ORG Home recognizes an opportunity and responsibility to improve the sustainability of our company, our community, and the world in every product and decision we make.

### ORG Home recycles

- Nearly 94% of our total waste
- 100% of metal, copper wire, and cardboard
- 100% of scrap wood and wood fibers from products and packaging
- All of our technology tools (recycled or refurbished)
- Warm air, via a dust collection system that returns it to our plant as heat, reducing natural gas consumption

### Environmental certification

The mark of responsible forestry

ORG Home is pleased to offer Forest Stewardship Council-Certified products. FSC® promotes responsible management of the world's forests to meet the economic and ecological needs of present and future generations. Ask about FSC certified product availability for your next project.

### EcoElements™

We know that what fills your home matters to you. That's why we offer this collection of choices designed with the environment in mind.

- Recycled content: The core of ORG Home composite panels is made of 100% recycled and/or recovered wood fiber.
- Plus Panels: While all ORG Home panels meet CARB emission standards, Plus Panels are made without added urea formaldehyde for even lower emissions.
- Forterra™: Named for the Latin words for "strength" and "earth," it's made with recycled content and designed to create more substance with less material.
- Powder-coated accessories: Many ORG Home accessories are powder-coated—a low-impact manufacturing process that is better for the environment than more common alternatives.
- ABS edgeband: A durable alternative for edging panels, ABS is one of the most environmentally friendly solutions on the market.
